THE COURAGE TO GO BEYOND VIOLENCE

Dear Editor:

TV and print images of Mumbai's 26/11 and New York's 9/11 are entrenched in our minds. Terrorism and war are horrifying realities of our time. 'Peace' and 'harmony' seem like dreams from a forgotten age. Is the peaceful resolution of international conflict still possible?

Unarmed Heroes compiled by *peace direct*, a UK-based organization devoted to war prevention, is a book that says, yes, it is.

Featuring 16 personal testimonies by those who have gathered the courage to transform violence in their lives, *Unarmed Heroes* is an inspiration as well as a handbook for overcoming conflict. The contributors, drawn from all over the globe, include relatives of those who died in the World Trade Center attack; Israel, Palestinian and Afghan peace activists; a former IRA bomber; and a missionary from the Congo. Closer to home, the book includes the story of Maria Mangte from Manipur, who overcame great personal difficulties in order to advance peaceful resolution of inter-tribal warfare.

In any war there are always people who, rather than pick up an AK 47, will take the difficult route of active peacemaking...
